

System Admin guide

System Admins run the league: they set up seasons, programs, and accounts, build and publish the schedule, give the final sign-off on schedule changes, and can see and do everything in Winter League.

Getting started

Signing in

1. Open the league's web address in any browser, on a computer or a phone.
2. Enter the **username** and **password** your league sent you, then **Sign in**.
3. The first time, you'll be asked to choose your own password. It needs at least 10 characters, including a letter and a number.

The screenshot shows the Winter League sign-in interface. At the top, there is a logo consisting of a blue hexagon with a white snowflake inside, followed by the text "Winter League". Below this, the heading "Sign in" is displayed in bold. Underneath the heading, a subtitle reads "League scheduling for program directors, coaches, and officials." The form contains two input fields: "Username" and "Password". The "Password" field has a "Show" button to its right. A large blue "Sign in" button is positioned below the password field. At the bottom of the form, there are two links: "Forgot username" and "Forgot password".

The sign-in page

Forgot something? Under the sign-in box, **Forgot username** emails you your username, and **Forgot password** emails you a link to set a new one. The link works once and expires after an hour.

Finding your way around

- **On a computer**, the main pages run across the top. Everything else is under your name in the top-right corner.
- **On a phone**, tap your initials in the top-right corner. The menu is organised into sections, and **Help**, **Change password**, and **Sign out** are always at the bottom. Tap anywhere outside the menu to close it.

The menu on a phone

A small dot on your initials, or a number next to **Requests**, means something is waiting for you.

Good to know

- **All times are Pacific Time**, whatever time zone your phone or computer is set to.

- **Closing the browser tab signs you out.** You can also choose **Sign out** from the menu. On a shared computer, always sign out.
- **This guide** is always under **Help** in the menu, and you can download it as a PDF from the top of this page.

Your dashboard

The dashboard shows the active season, referee coverage, upcoming games, and each program's setup progress, so you can see at a glance which programs still need to enter gym time, venues, or teams.

The System Admin dashboard

The **All programs** dropdown in the header narrows pages like Gym slots, Venues, and Teams to one program. Set it back to **All programs** to see the whole league.

Setting up a new season

Do these in order before programs start entering gym time.

1. The season and divisions

Menu → League admin → League setup.

- **Season:** Add **season** with its first and last day, and use **Make active** if it isn't already the active season. Only one season is active at a time; gym slots, blackouts, and the schedule all belong to it.
- **Divisions:** the grade and gender groups teams play in (e.g. *6th Grade Girls*). The league starts with ten; rename, add, or deactivate them to match your league. Teams only ever play teams in their own division.

League setup

2. Programs

Menu → League admin → Programs → Add program. Each club or organisation is a program, with a name, a 2–6 letter short code (e.g. *GYB*), and contact details. The bar at the top shows how many of the league's program spots are used.

Users

- **Sorting and searching:** click **Name**, **Role**, **Program**, or **Last sign-in** to sort; search by name, username, or email; filter by role.
- **Someone locked out?** Open their account and choose **Issue temporary password**.
- **Someone leaving?** Untick **Active** in their account. They can no longer sign in, but their history stays.
- Referees can also be added by the Referee Assignor on the **Referees** page.

Role	What they do
System Admin	Everything in this guide
Program Director	Runs one program: venues, teams, gym slots, blackouts, and approving its schedule changes
Coach	Sees their teams' schedule and asks for changes
Referee Assignor	Manages referees: roster, assignments, attendance, and payouts
Referee	Sees their games, checks in, and marks dates they can't work

4. Branding & Theme

Menu → League admin → Branding & Theme. Set the name shown across the app and in emails, upload a logo (PNG, JPEG, WebP, or SVG under 300 KB), and pick the sitewide color theme. The preview shows your changes before you save.

The screenshot shows the 'Branding & Theme' settings page. At the top, there's a navigation bar with 'Winter League' and a snowflake icon, followed by links: Dashboard, Schedule, Requests, Gym slots, Blackouts, Venues, Teams. On the right, there's a dropdown for 'All programs' and a user profile for 'Grace Kim, System Admin'. The main heading is 'Branding & Theme' with a subtitle: 'The name, logo, and colors this conference sees everywhere: the header, the sign-in page, the browser tab, and emails.'

The settings are organized into two main sections:

- App name:** A text input field containing 'Winter League'. Below it, a note says: 'Shown exactly as typed. Long names wrap onto two lines in the header.'
- Logo:** A section with a hexagonal icon placeholder and an 'Upload logo' button. Below it, a note specifies: 'PNG, JPEG, WebP, or SVG, under 300 KB. A transparent background works best. It's shown 28 px tall in the header and 40 px on the sign-in page, and it becomes the browser-tab icon. Until you upload one, the built-in hexagon mark is used.'
- Preview:** A visual representation of the header and sign-in page. The header shows the 'Winter League' logo and name, and the sign-in page shows a large 'Winter League' logo. A note below says: 'Header on top, sign-in page below, in the current theme.'
- Save branding:** A button to save the changes.
- Sitewide theme:** A section with a subtitle: 'The color theme for everyone, including the sign-in page. Changes apply as soon as you pick one.' It includes a 'Theme' dropdown menu currently set to 'Light Mode'.

At the bottom, a small note reads: 'Running more than one conference? Each conference gets its own copy of the app with its own database (see DEPLOYMENT.md), so each sets its own name, logo, and theme here.'

Branding & Theme

Building and publishing the schedule

Once programs have entered their gym slots, blackouts, and teams, the Schedule builder creates the season's games. Nothing is visible to coaches, directors, or referees until you publish.

1. Check the rules

Menu → Scheduling → Schedule builder.

Matchmaker rules

The matchmaker only pairs teams in the same division and only uses open weeknight and weekend game slots. It never books a court twice, schedules on a blackout day, or goes over the opponent limits below.

Generate draft

Games per team

8

Regular-season target for every team.

Game length (minutes)

60

Each game slot is split into back-to-back games of this length.

Travel cap (miles)

30

Straight-line distance from the away program to the gym.

Days between games

2

1 = not on the same day; 2 = at least one day off in between.

Games per week

2

Most games one team plays Monday–Sunday.

Most games against the same opponent

2

2 lets each pair meet home and away. In small divisions a low limit can leave teams short of games; the notes will say so.

Teams from the same program can play each other

☐ Off

Off: a program's own teams (e.g. its Competitive and Developmental 6th Grade Girls) never play each other.

Matchmaker rules

Rule	What it does	Default
Games per team	The target for every team	8
Game length	Each game slot is split into back-to-back games this long	60 minutes
Travel cap	Furthest the away team should travel	30 miles
Days between games	2 means at least one day off between a team's games	2
Games per week	Most games one team plays Monday–Sunday	2
Most games against the same opponent	How often the same two teams can meet	2
Teams from the same program can play each other	Off means a program's own teams never meet	Off

2. Generate a draft

Click **Generate draft** (or **Regenerate draft** to start over). It takes a few seconds. Changed rules are saved when you generate.

---	--	--	---	--

A draft schedule

Read the summary cards (games placed, home/away balance, longest trip, season span, anything needing attention) and **Notes from the matchmaker**, which explain in plain words anything it couldn't do, such as a team left short of games and which setting would fix it.

3. Review and adjust

- **By date:** every game. **Move** picks a new time from a list that already passes every rule; **Flip** swaps home and away; **Unplace** takes a game off the calendar.
- **Unplaced:** pairings the matchmaker couldn't fit. Use **Place game** to put them somewhere by hand.
- **Team balance:** each team's games and home/away count. Bold rows are more than one game off 50/50 or short of the target.

Team balance

4. Publish

Click **Publish schedule**. Coaches, directors, and referees see it immediately. **Discard draft** throws a draft away without affecting anything published.

Publishing again later replaces the current schedule. The app warns you first: open change requests on the old schedule are cancelled, and referee assignments carry over only to games that didn't change.

Changes after publishing

In the Schedule builder, switch to **Published** to move, flip, **Cancel**, or **Restore** a live game. Every change is logged and both teams' directors see it. Referees on a moved game stay on it if they're still free; otherwise they're removed and emailed. Cancelling a game releases its referees.

Final scores

Coaches and directors of the two teams enter final scores after each game, and you can enter or correct any game's score the same way: **Schedule** → **Enter score** or **Edit score**. When you enter or correct

- Every entry, correction, and clearing is in **Activity**, with who made it and the previous score, so disagreements can be settled from the record.
- A game with a final score can't be moved, unplaced, or cancelled until its score is cleared. **Flip** swaps the scores along with home and away.
- Republishing the schedule keeps scores on games that didn't change.

Coaches and directors ask for changes from the Schedule page. A request goes to the requesting coach's own director, then to every other program involved, and finally to you.

- **Approve & apply** checks the change against the schedule as it is right now, then applies it. If something has taken that time in the meantime, it tells you, and you can deny with a note so the requester can pick another time.
- **Deny** needs a short note for the requester. You can deny at any stage.

A request waiting for league sign-off

Activity

Menu → **League admin** → **Activity** lists every change across the league, newest first: who did it (with their program or role) and which programs it involves. Filter by type with the buttons at the top.
