

Program Director guide

Program Directors run one program in the league. You tell the league when and where your program can host games, keep your teams and venues up to date, and approve schedule changes that involve your teams. You only ever see and change your own program.

Getting started

Signing in

1. Open the league's web address in any browser, on a computer or a phone.
2. Enter the **username** and **password** your league sent you, then **Sign in**.
3. The first time, you'll be asked to choose your own password. It needs at least 10 characters, including a letter and a number.

A screenshot of the Winter League sign-in page. At the top, there is a logo consisting of a blue hexagon with a white snowflake inside, followed by the text "Winter League" in a bold, dark blue font. Below the logo, the heading "Sign in" is displayed in a bold, dark blue font. Underneath the heading, a subtitle reads "League scheduling for program directors, coaches, and officials." in a smaller, grey font. The sign-in form consists of two input fields: "Username" and "Password". The "Username" field is a simple white box with a light blue border. The "Password" field is a white box with a light blue border and a "Show" button to its right. Below the password field is a large, dark blue button with the text "Sign in" in white. At the bottom of the form, there are two links: "Forgot username" and "Forgot password", separated by a dot.

The sign-in page

Forgot something? Under the sign-in box, **Forgot username** emails you your username, and **Forgot password** emails you a link to set a new one. The link works once and expires after an hour.

Finding your way around

- **On a computer**, the main pages run across the top. Everything else is under your name in the top-right corner.
- **On a phone**, tap your initials in the top-right corner. The menu is organised into sections, and **Help**, **Change password**, and **Sign out** are always at the bottom. Tap anywhere outside the menu to close it.

The menu on a phone

A small dot on your initials, or a number next to **Requests**, means something is waiting for you.

Good to know

- **All times are Pacific Time**, whatever time zone your phone or computer is set to.

- **Closing the browser tab signs you out.** You can also choose **Sign out** from the menu. On a shared computer, always sign out.
- **This guide** is always under **Help** in the menu, and you can download it as a PDF from the top of this page.

Your dashboard

Get your program ready lists what the league needs from you before it can build the schedule, and ticks each item off as you finish it. Once the schedule is published, the dashboard shows your upcoming games.

The screenshot shows the 'Winter League' dashboard for a Program Director named Colleen Rogers. The top navigation bar includes links for Dashboard, Schedule, Requests (with a notification badge), Gym slots, Blackouts, Venues, and Teams. The main content area is titled 'Good evening, Colleen' and identifies her as the Program Director for Glencoe Youth Basketball. It shows the active season as 'Winter 2026-27' from Nov 2 to Feb 28, 2027, starting in 41 days. A 'Get your program ready' section lists six tasks: 'Add your gyms' (checked), 'Add map coordinates to every gym' (checked), 'Add your teams' (checked), 'Assign a coach to each team' (unchecked), 'Enter weeknight and weekend game slots' (checked), and 'Mark blackout dates' (checked). Below this, the 'Upcoming games' section shows 48 games for the program, published on Sep 22. A table lists the first game on Thursday, Nov 5, at 6:30pm-7:30pm, between Forest Grove 7th Girls and Glencoe 7th Girls. A 'Change requested' button is visible next to the game entry.

A director's dashboard

Venues and courts

Menu → **My program** → **Venues** → **Add venue**. Add each gym your program can host games in, with its address and **map coordinates** (latitude and longitude). The coordinates let the league keep travel reasonable for visiting teams.

Each venue has one or more **courts**. Type a name in **New court name** and choose **Add court**. Gym slots are entered per court.

Role (optional): Other (type it in)... ▼

Role name: Scorekeeper ▼

Adding someone here doesn't give them an app account. Only the league admin can create accounts.

Cancel Add contact

Adding a contact

A contact is **not an app account**. They can't sign in, and adding someone here doesn't create one. Only the league's System Admin creates accounts. Search finds a contact by name, email, phone, or role. The System Admin can see every program's directory.

A coach without an account yet

Add them to the Directory with the role **Coach**. On **Teams**, open the team and choose them under **Head coach** → **From the Directory (no account yet)**. The team shows them with a **Directory** tag.

Edit team

×

▼

A Directory coach can't sign in, so they won't see the schedule or request changes.
When the league admin creates their Coach account, switch the team to it.

☒ Active this season

Cancel

Save team

A Directory coach on a team

Because a Directory coach can't sign in, they won't see the schedule or be able to request changes. Ask the System Admin to create their Coach account. When it exists (same email, or same first and last name), their Directory entry says *"Now has a Coach account"*. Click **Use the account for their team(s)** to move every team they coach over to the real account in one step. The Directory entry stays, and you can remove it.

While a contact is the head coach of a team, you can't change their role away from Coach. Removing them from the Directory leaves their teams with no head coach (you're warned first).

Gym slots

Gym slots are the times your program can offer the league. **Menu → My program → Gym slots.**

---------------------------------	--	---------------------------------	--	---------------------------------	--	---------------------------------

The gym slots week board

Category	Used for
Practice	Your own practices. The league never schedules games here.
Weeknight game	League games on a weeknight, e.g. 6:30–9:00 PM.
Weekend game block	A longer block, e.g. Saturday 9:00 AM–3:00 PM, split into several back-to-back games.

Adding gym slots

1. Choose **Add gym slots** (or the **+** on any day).
2. Pick the court, category, **Start date**, and start and end time. For one date, that's all.
3. To repeat it, also pick an **End date**, e.g. *11/02/2026 to 1/15/2027*, and under **Repeat on** choose the days of the week, e.g. **Mon** and **Wed**, or **Tue**, **Wed** and **Thu**. The form says how many slots that makes. With **Skip blackout dates** ticked, dates that fall in a blackout are skipped, and the app lists any dates it skipped.
4. For game slots, you can also choose who they're kept for (see *Day preferences* below).

Make game slots long enough for two games. Referees work games back to back, so the league's matchmaker stacks games at a gym: a second game is placed right after the first rather than on another day. A slot with room for only one game (e.g. 6:00–7:00 PM with 60-minute games) leaves that game on its own, which referees may not be able to cover. A 6:00–8:00 PM slot holds two.

e.g. Use the north entrance after 6pm

Apply changes to

This slot is part of a block: Thursdays, Nov 5 – Jan 7 (10 dates).

This date only — Thursday, November 19, 2026. The rest of the block stays as it is.

This and later dates — 8 dates, through Jan 7.

Every date in the block — all 10 dates.

Only what you change here (time, court, type, "Keep for", notes) is applied to the other dates; anything else they have stays. Dates that can't change (a published game would no longer fit, or the time clashes with another slot) are skipped and listed.

Delete...

Cancel

Save for all 10 dates

Editing a block of gym slots

A block edit can change the **time**, **court**, **slot type**, **Keep for**, and **notes**. Only what you change is applied to the other dates: if you move the end time from 9:00 to 9:30, every date gets the new end time, and a date you gave a different court earlier keeps its court. To move a slot to another **date**, use **This date only**.

Some dates can't always change. They're skipped, and the app lists them with the reason, while the rest of the block is updated:

- a **published game** in the slot would no longer fit (you can make a slot longer around its games, but not shorter than them or onto another court; ask the league admin to move those games first);
- the new time would **overlap another slot** on the same court.

If the league has a **draft** schedule and a draft game no longer fits a changed slot, that game goes back to the league's Unplaced list, and the app tells you how many.

Deleting works the same way: **Delete this slot**, or **This and later dates in the block**. A slot with published games in it can't be deleted; its card says how many games are scheduled.

Day preferences: keeping game slots for certain divisions

If, for example, your 4th to 6th grade teams play on Mondays and Wednesdays, keep those game slots for them. The league's matchmaker then gives those slots to their games first.

Keep for is a grid of grades and Boys/Girls. Tick any mix of divisions:

- click a grade (e.g. **4th grade**) to tick its boys' and girls' divisions;
- click **Boys** or **Girls** (or **All boys / All girls**) to tick every division of that gender;
- **Clear** unticks everything, so any game can use the slot.

The form shows the result, e.g. *Kept for: 4th–6th Grade Boys & Girls*.

Tag many slots at once: choose **Tag game slots**, pick the **Days** (e.g. *Mon* and *Wed*), optionally one **Venue** and a date range, then choose:

- **Keep for:** the divisions, as above.
- **How strictly?**
 - **Priority** (the default): those games get the slot first. Other games use it only if nothing else fits, so a priority tag never costs anyone games.
 - **Only:** no other games are ever placed there. If there aren't enough of those games, the slot stays empty, and other teams may end up short of gym time.

Tag game slots

×

Keep the game slots on chosen days for certain divisions, e.g. *4th–6th grade boys and girls on Mondays and Wednesdays*. It changes weeknight and weekend game slots you've already added; practice slots aren't affected. Tick no divisions to clear the tags.

Cancel

Tag slots

Tagging game slots

It changes your existing weeknight and weekend game slots; practice slots aren't affected. To tag a single slot, open it and use **Keep for**. New slots can be tagged when you add them. Tagged slots show a ★ line on the week board, e.g. ★ *4th–6th Grade Boys & Girls priority* or ★ *Girls only*. To remove tags, use **Tag game slots** with no divisions ticked.

What it can and can't do: a tag decides which games are played **in your gyms**, so it covers your home games. Away games are at the other program's gyms, on their slots. A team also can't play two

games too close together, so a team with two games in a week may still play one on another day. After the league generates a draft, its notes report how your tagged slots were used, e.g. *"4th–6th Grade Boys & Girls priority slots: 12 of 14 game times used by 4th–6th Grade Boys & Girls games."*

Blackout dates

Menu → My program → Blackouts. Add dates your program, or one of its venues, can't be used: holidays, school events, building closures. Gym slots on those dates are shown hatched and aren't used for games. Removing a blackout makes them available again.

----------------------------------	---	----------------

The published schedule

Each game shows the referees assigned to it, or **Referees: not assigned yet** if the assignor hasn't filled them.

Download CSV saves the games you're looking at, with your filters, as a spreadsheet file you can open in Excel, Google Sheets, or Numbers: date, day, times, division, both teams and programs, venue, court and address, status, scores, referees, and notes (e.g. *Cancelled: gym closed*).

Travel. The league has one travel cap (30 miles by default) for how far a team travels to an away game. If your program needs a shorter one, ask the league to set a **program travel cap** for you. Your teams then never travel further than that, and opponents beyond it come to your gyms instead. That means more home games for your teams, so make sure you have enough game slots, and possibly fewer games if there isn't enough gym time.

Reviewing the draft schedule

Before the league publishes a schedule, you're asked to check your program's games. When a draft is shared you get an email, and your **Dashboard** shows a card linking to it.

The draft schedule is ready for your review
Check your program's games and sign off by Sunday, October 4, 2026.

Review the draft

The dashboard card

Menu → Scheduling → Draft review shows every draft game involving your program (not other programs' games), read-only. Only you and the league can see it: coaches and referees see the schedule once it's published.

- **Sign off** if your games work. You can add a note for the league.
- **Flag** a game that doesn't work, with a note, e.g. *"11/5 clashes with our school event."* The league is emailed and either changes the game or replies. Either way you're emailed, and the reply shows under **Your flags**. When your games work, sign off. Signing off withdraws any flags still open.

Draft review

Download CSV (above the list of games) saves your program's draft games as a spreadsheet file, e.g. to check them against school calendars or share with your coaches before you sign off. It's a snapshot: if the league changes the draft, download it again.

Please respond by the deadline shown at the top. If the league changes one of your games after you've signed off, your status goes back to **Waiting**, you're emailed with what changed, and the page shows it,

so please review again. Changes to other programs' games don't affect your sign-off.

The league publishes once every program has signed off. If the deadline passes without a response, the league can publish anyway, and that's recorded.

Referee payouts for your program

Programs pay the referees, **one referee each per game**. **Menu → My program → Referee payouts** lists the referees **your program pays** and what each is owed. A referee the other program pays isn't in your list or your total, so nobody is paid twice.

Game	Who pays
Two referees worked	The home program pays Referee 1 ; the away program pays Referee 2
Only one referee worked (the other slot was empty or a no-show)	The two programs pay half each
Guest game	The same: your program (home) pays Referee 1 and the guest program pays Referee 2, or half each for a lone referee. The league collects the guest's share, since a guest has no director
Two teams from the same program	That program pays every referee

Home and away games are balanced across the season, so each program ends up paying for about the same number of referees. Referees can have different pay rates, so the two programs in a game may owe slightly different amounts.

1. Choose **From** and **To** dates and **Update**.
2. **Your program owes** is the total for those dates. Expand a referee to see each game you pay them for.
3. Under each game, a line names the other referee and the program that pays them, for example *Referee 2, Morgan Hayes: paid by Oak Hollow Owls*. When you're paying half, it says so and names the program paying the other half.
4. **Download game detail (CSV)** gives one row per payment, each detail in its own column so you can sort or filter in Excel or Google Sheets: **Referee, Email, Date, Home team, Away team, Checked**

in (Pacific Time), **Confirmed by**, **Paid by**, **Share** (Full or Half), and **Amount**. **Download summary (CSV)** gives one row per referee.

Referee payouts for a program

No money moves through the app; pay your referees the way your program usually does. If a warning says some assigned referees never checked in, the Referee Assignor confirms attendance for those games. That can change who pays: a game with one confirmed referee is split, and becomes one referee each once the second is confirmed.

Winter League · Program Director guide

Page 18 of 25

Final scores

After a game, you or a coach of either team enter the final score. On **Schedule**, played games have an **Enter score** button from tip-off on game day; tick **Needs a score** to see the ones still waiting. Your dashboard says how many of your program's games need scores.

Enter each team's points, an optional note (e.g. *Forfeit*), and **Save score**. The other team's coach and director are emailed, and every entry or correction shows in both programs' Activity. Use **Edit score** or **Clear score** to fix a mistake. The [Coach guide](#) has screenshots of each step.

Change requests

When a game needs to change, anyone involved can ask. **Request change** on a game lets you **move this game** to another open time, **swap** it with another of your program's games, or **cancel** it if it can't be played at all (weather, a gym closure). Only times that fit every scheduling rule are offered, and a cancellation needs a reason.

The screenshot shows a web interface for a game cancellation request. At the top, there are three tabs: 'Cancel' (selected), 'Waiting on program director', and 'Needs your decision'. The page title is '7th Grade Boys'. The main content area shows a game scheduled for 'Now - Thursday, November 5, 2026' at '7:30pm-8:30pm' between 'Glencoe 7th Boys' and 'Hilhi 7th Boys' at 'Evergreen Middle School - Main Gym'. A red 'X' icon indicates a request to 'Cancel this game' with the reason 'It won't be played. Any referees are taken off.' Below this, a text box contains the reason: 'Snow closed the school; the gym is unavailable.' A list of actions follows: 'Requested by Tasha Greene · Glencoe Youth Basketball · Sep 25, 10:06 AM', 'Glencoe Youth Basketball director · Waiting', 'Hilhi Youth Basketball (other program) · Next, after the director endorses', and 'League sign-off · After the programs agree'. At the bottom right, there are three buttons: 'Withdraw request', 'Deny', and 'Endorse'.

A cancellation waiting for a decision

A cancelled game stays on the schedule marked **Cancelled** with the reason, so everyone can see what happened, and its referees are taken off.

Requesting an extra game

To add a game for one of your teams, for example to replace a cancelled one, choose **Request a game** at the top of the **Schedule** page:

1. Choose your **Team** and the **Opponent**. Only opponents within the league rules are listed: the same division, another program, and not already played as often as the league allows. **Guest teams** (outside clubs the league has set up, marked *guest*) are listed too, for a non-conference game. If

none are listed, your team already plays everyone it can. Contact the league if it needs a game outside the rules.

2. Pick a time. Every time listed is an open game slot at either team's gym that fits both teams' schedules, and the court decides who hosts.
3. Give a reason and choose **Send request**.

It follows the same path as other requests, and the game appears on the schedule, with referee slots, when the league signs off. Games added this way show an **Added** badge.

The screenshot shows a web interface for a basketball league. At the top, there are three tabs: 'Add game', 'Waiting on program director' (highlighted in yellow), and 'Needs your decision'. The page title is '5th Grade Boys'. The main content area is divided into two columns. The left column shows a 'Proposed new game' for Thursday, November 5, 2026, at 7:30pm-8:30pm, between Riverbend 5th Boys and Northfield 5th Boys at Riverbend High School - Main gym. The right column shows a 'Requested' game with the text 'Add this game to the schedule' and a note that it counts like any other game. Below these columns, there is a note: 'Replaces our game that was cancelled for the roof repair.' A list of actions follows: 'Requested by Tasha Greene - Northfield Hawks - Sep 26, 4:30 PM', 'Northfield Hawks director - Waiting', 'Riverbend Youth Basketball (other program) - Next, after the director endorses', and 'League sign-off - After the programs agree'. At the bottom right, there are three buttons: 'Withdraw request', 'Deny', and 'Endorse' (highlighted in blue).

A request to add a game

Guest games

A game against a guest team is always at one of your gyms, so only your times are offered. There's no guest director, so after you ask (or endorse your coach's request) it goes straight to the league. Guest games show (*guest*) after the guest team's name and a **Guest game** badge. They get referees and scores like any other game, but they don't count toward your team's games-per-team target or home/away balance.

Every request follows the same path:

1. **Your approval**, if one of your coaches asked.
2. **The other program's director** agrees.
3. **The league** gives final sign-off, and the change is applied.

Menu → **League** → **Requests** shows every request involving your program. The number on **Requests** is how many are waiting on you.

- **Endorse**: approve your own coach's request so it moves to the other program.
- **Agree**: accept another program's request involving your team.
- **Deny**: turn it down, with a short note explaining why.
- **Withdraw request**: cancel a request your program made, while it's still open.

Change requests

Moves and swaps on the published schedule. Coach requests go to their director first, then every other program involved agrees, then the league signs off.

Requests waiting on a director

Rule requests

Some things about the schedule only the league can set. A rule request is how you tell the league what your program needs, with the reason, and get an answer you can refer back to.

First, what you can set yourself. You don't need to ask for these:

- Dates your program can't play: Blackout dates.
- When and where your gyms are free: Gym slots.
- Which divisions play on which days: **Keep for** on your gym slots (Day preferences).

What to ask the league for:

Choose	When
A lower travel cap	Your teams shouldn't travel as far as the league allows. Opponents beyond your cap come to your gyms instead, so you need enough game slots to host them.
A division's rematch limit	A division is small and its teams need to meet more often to reach their games, or you'd like fewer repeats.
A league rule	Games per team, game length, the buffer between games, days between games, games per week. These apply to every program.
Something else	Anything else the schedule should take into account, for example <i>No games before 10 AM on Saturdays.</i>

Sending a request

1. **Menu** → **League** → **Requests**, then the **Rule requests** tab.
2. Choose **New rule request**.
3. Pick what it's about and fill in the value: the miles for a travel cap (it has to be lower than the league's), or the division and number of games for a rematch limit. For the other two, describe it in a few words.
4. Under **Why?**, give the reason in a sentence or two. The league decides from this.
5. Choose **Send to the league**. The System Admins are emailed.

New rule request

×

What is it about?

☒ **A lower travel cap**
How far this program's teams travel to away games.

☐ **A division's rematch limit**
How many times two teams in a division can meet.

☐ **A league rule**
Games per team, game length, buffer, days between games...

☐ **Something else**
Anything else the schedule should take into account.

Travel cap you'd like (miles)

15

The league cap is 30 miles; a program's own cap has to be lower. Opponents further away than your cap would come to your gyms instead, so you'd need enough game slots.

Why?

Most of our families can't make long weeknight drives. We have two gyms and can host the further programs.

Cancel

Send to the league

A new rule request

You can have one open travel-cap request at a time, and one rematch request for each division. Only your program and the league can see your requests; other programs can't. Coaches can't send rule requests, so ask them to bring these to you.

Following a request

Each request shows where it stands:

- **Waiting for the league:** nothing for you to do yet.
- **Question for the program:** the league asked something. Choose **Reply**; the request then goes back to the league. The Requests menu item shows a number while a question is waiting on you.
- **Accepted:** the league agrees. For a travel cap or rematch limit, the request shows the value that went into the rules (the league can adjust what you asked for) and it applies to the next draft schedule built.

- **Noted:** the scheduler can't do this by itself, so the league keeps it on record and checks it when reviewing the schedule.
- **Declined:** the league's note says why.

You're emailed at each step. **Add a comment** adds more information while a request is open.

Northfield Hawks

Requests

Tell the league what your program needs from the schedule rules, and follow the answer here. Only your program and the league can see these.

Game changes 2
Rule requests

New rule request

You can set these yourself, without asking the league:

- Dates your program can't play: [Blackout dates](#).
- When and where your gyms are free: [Gym slots](#).
- Which divisions play on which days: **Keep for** on your [gym slots](#).

Use a rule request for what only the league can set: your program's travel cap, a division's rematch limit, a league rule, or anything else the schedule should take into account.

Something else
Waiting for the league

Northfield Hawks

No games before 10 AM on Saturdays

Our gym is used for a community class until 9:30.

Asked by Dana Whitfield · Oct 2, 3:45 PM

League · Grace Kim · Oct 2, 3:45 PM
Is that every Saturday, or only until the class ends in December?

Northfield Hawks · Dana Whitfield · Oct 2, 3:45 PM
Every Saturday through the end of the season.

Withdraw
Add a comment

Rematch limit
Waiting for the league

Northfield Hawks

4th Grade Boys: 4 games against the same opponent

In the rules now: the league value, 2 games.

Only three programs have a team in this division, so two games against each leaves us short.

Rule requests for a director

Accepted and noted requests move to **In effect** and stay there season after season; the league confirms each one again when a new season starts. When you no longer need one, choose **Withdraw**. The league is told, and removes the setting from the rules. Declined and withdrawn requests are kept under **Closed**.
