Coach guide

Coaches see their teams' schedule and ask for a game to be moved when something comes up. Changes you ask for go to your Program Director, then to the other team's program, and finally to the league, so everyone involved agrees before a game moves.

Getting started

Signing in

1. Open the league's web address in any browser, on a computer or a phone.
2. Enter the **username** and **password** your league sent you, then **Sign in**.
3. The first time, you'll be asked to choose your own password. It needs at least 10 characters, including a letter and a number.

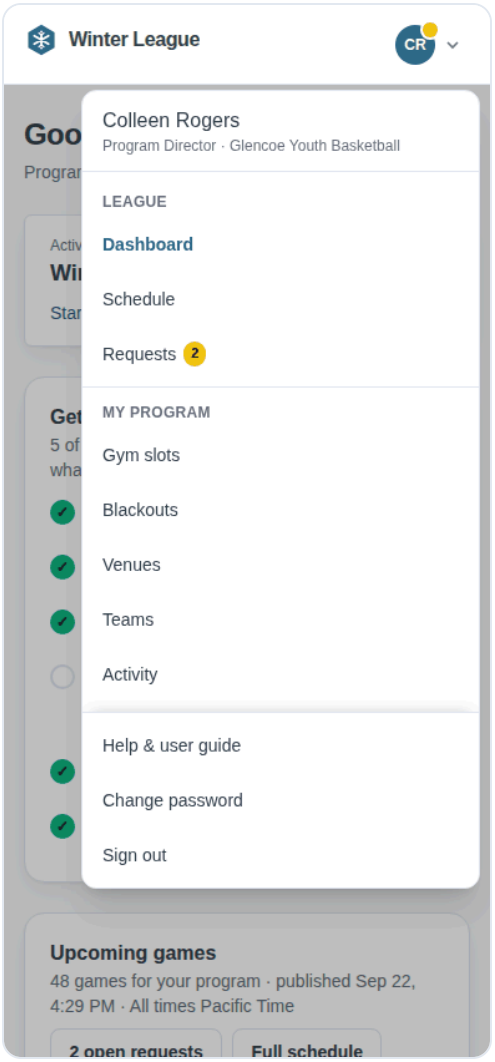

The sign-in page

Forgot something? Under the sign-in box, **Forgot username** emails you your username, and **Forgot password** emails you a link to set a new one. The link works once and expires after an hour.

Finding your way around

- **On a computer,** the main pages run across the top. Everything else is under your name in the top-right corner.
- **On a phone,** tap your initials in the top-right corner. The menu is organised into sections, and **Help**, **Change password**, and **Sign out** are always at the bottom. Tap anywhere outside the menu to close it.

The menu on a phone

A small dot on your initials, or a number next to **Requests**, means something is waiting for you.

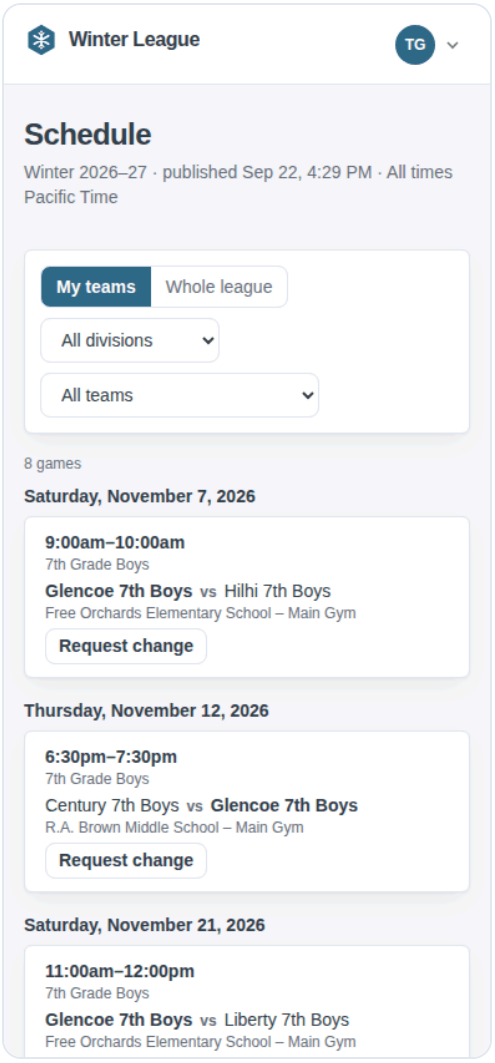

Good to know

- **All times are Pacific Time,** whatever time zone your phone or computer is set to.

- **Closing the browser tab signs you out.** You can also choose **Sign out** from the menu. On a shared computer, always sign out.
- **This guide** is always under **Help** in the menu, and you can download it as a PDF from the top of this page.

Your schedule

Menu → League → Schedule. My teams shows your teams' games, with your team in bold. **Whole league** shows every game. Filter by division or team, and tick **Show past games** to look back. Your dashboard also lists your next few games.

A coach's schedule on a phone

Download CSV saves the games you're looking at, with your filters, as a spreadsheet file you can open in Excel, Google Sheets, or Numbers: date, day, times, division, both teams and programs, venue, court

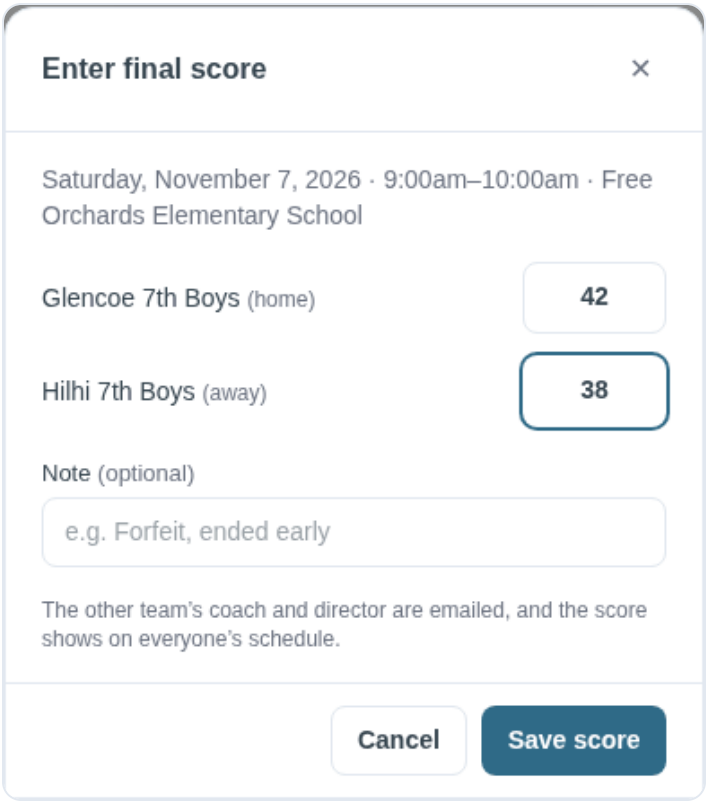

and address, status, scores, referees, and notes (e.g. *Cancelled: gym closed*). For example, choose **My teams** and one team to save just that team's games.

Change requested on a game means someone has asked to change it and it's waiting for approval. Each game also lists the referees assigned to it, or **Referees: not assigned yet**.

Entering the final score

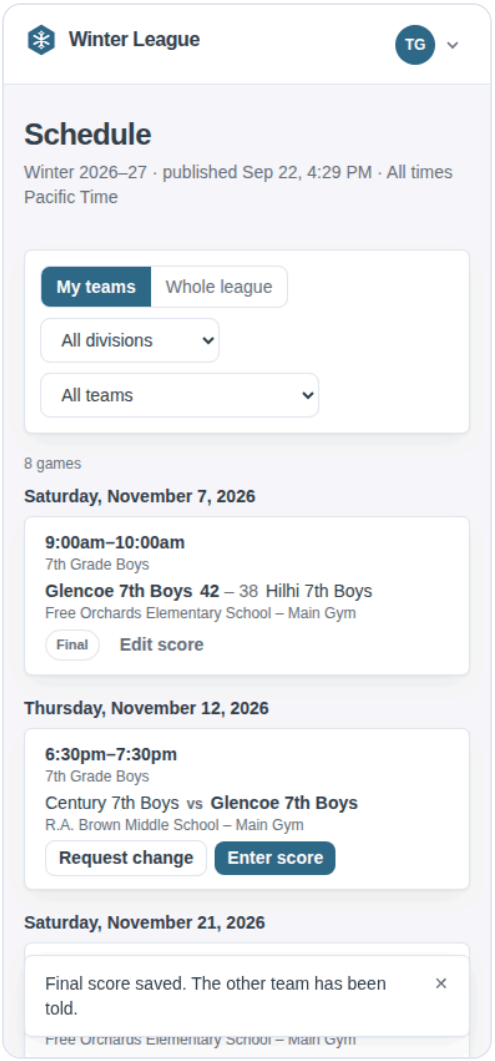

After a game, a coach of either team can enter the final score. Either side can do it, so there's no need to wait for the other team.

1. On **Schedule**, find the game. From tip-off on game day, it has an **Enter score** button. Tick **Needs a score** to see only played games still waiting for one. Your dashboard also says when games need scores.
2. Enter each team's points, and optionally a note such as *Forfeit* or *Ended early*.
3. Choose **Save score**.

Entering the final score

The score replaces "vs" on everyone's schedule, with the winning score in bold and a **Final** badge.

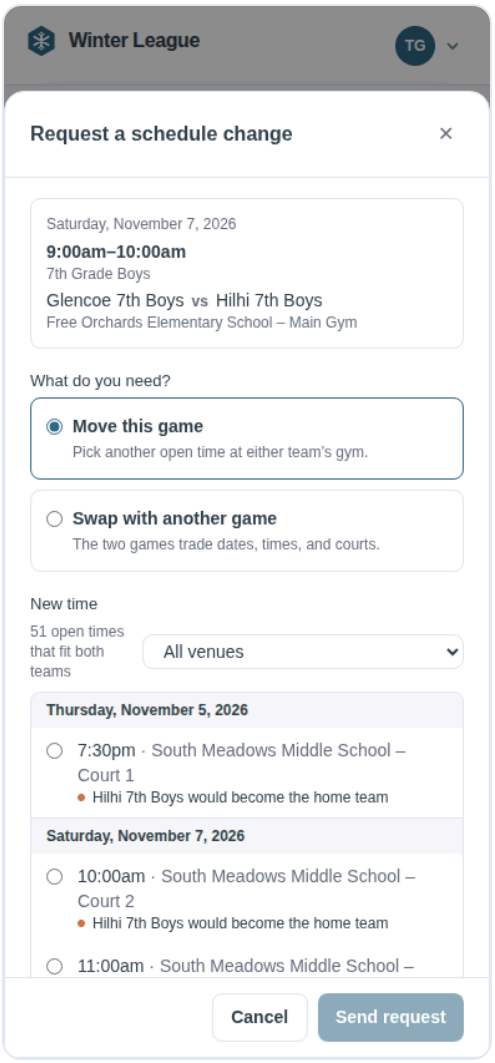

A game with its final score

The other team's coach and director get an email with the score. If a score is wrong, choose **Edit score** to correct it, or **Clear score** to remove it. Corrections are emailed too, and every change shows in the programs' Activity. A game with a final score can't be moved or rescheduled.

Asking to move a game

1. On **Schedule**, find the game and choose **Request change**.
2. Choose what you need:
   - **Move this game:** pick a new time from the list. Every time shown is open at one of the two teams' gyms and fits both teams' schedules. If it's at the other team's gym, you'll see that the home team changes.
   - **Swap with another game:** trade the date, time, and court with another of your team's games.
   - **Cancel this game:** the game won't be played at all, e.g. snow or a gym closure.

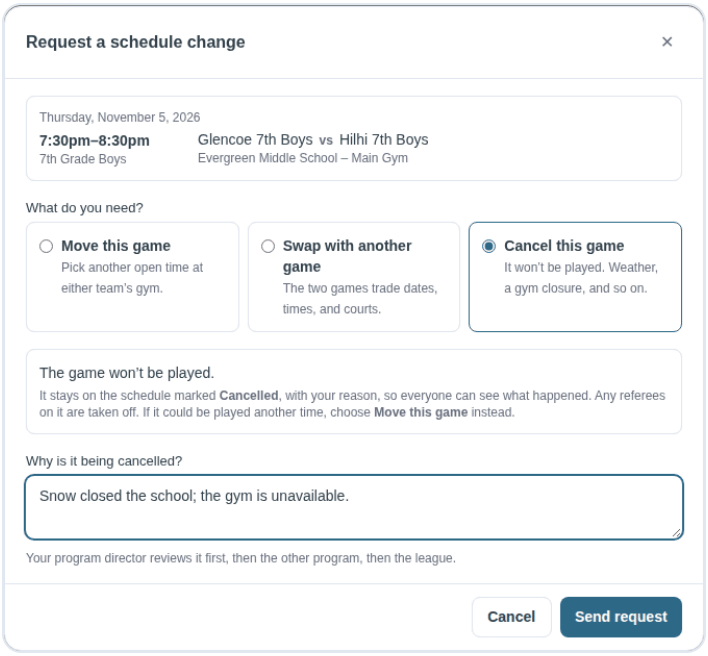

3. Give a short **reason**, e.g. *"Our gym has a school concert that night."*
4. Choose **Send request**.

Asking for a change

Cancelling a game

If a game can't be played at all, choose **Cancel this game** and say why: weather, a gym closure, and so on. It goes through the same approvals as a move, so your director, the other program, and the league all see the reason before it's called off.

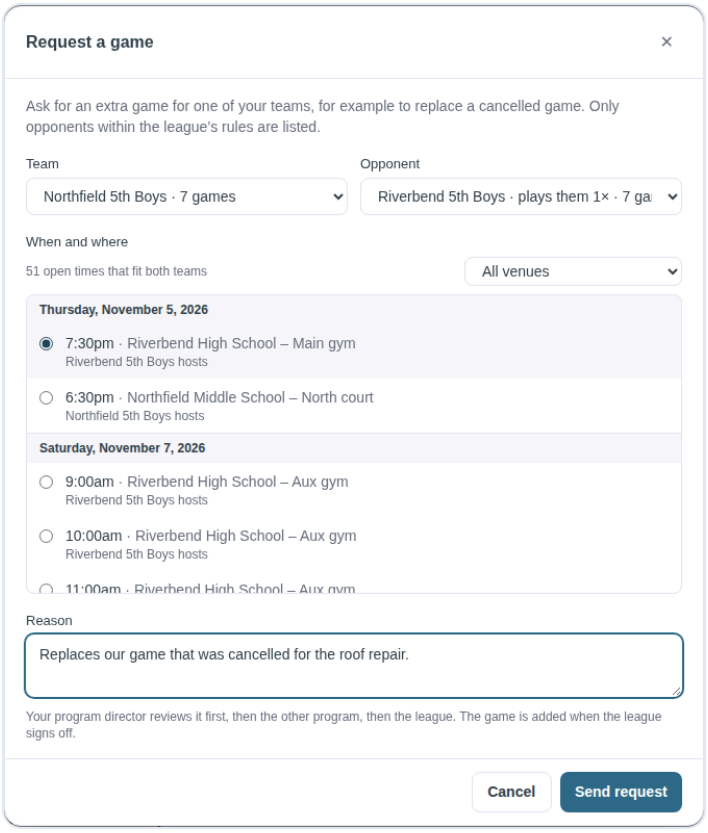

Asking to cancel a game

A cancelled game stays on the schedule, struck through and marked **Cancelled** with the reason, so there's a record of what happened. Any referees are taken off and told. If the game could still be played another time, ask to **move** it instead.

Asking for an extra game

If your team needs another game, for example because one was cancelled, choose **Request a game** at the top of the **Schedule** page.

1. Choose your **Team** (if you coach more than one) and the **Opponent**. Only opponents within the league rules are listed, including any **guest teams** (outside clubs, marked *guest*) in your division. If there are none, your team already plays everyone it can as often as the league allows, so ask your director or the league.
2. Pick a time from the list. Each one is an open game slot at one of the two teams' gyms that fits both teams' schedules. It says which team hosts.
3. Give a short **reason**, e.g. *"Replaces our game that was cancelled for snow."*
4. Choose **Send request**.

Asking for an extra game

It goes through the same approvals as a move. Once the league signs off, the game appears on your schedule marked **Added**.

A game against a guest team is always at your own gym, and there's no guest director to agree, so it goes from your director straight to the league. On the schedule the guest team has *(guest)* after its name and the game has a **Guest game** badge. Enter its final score as usual.

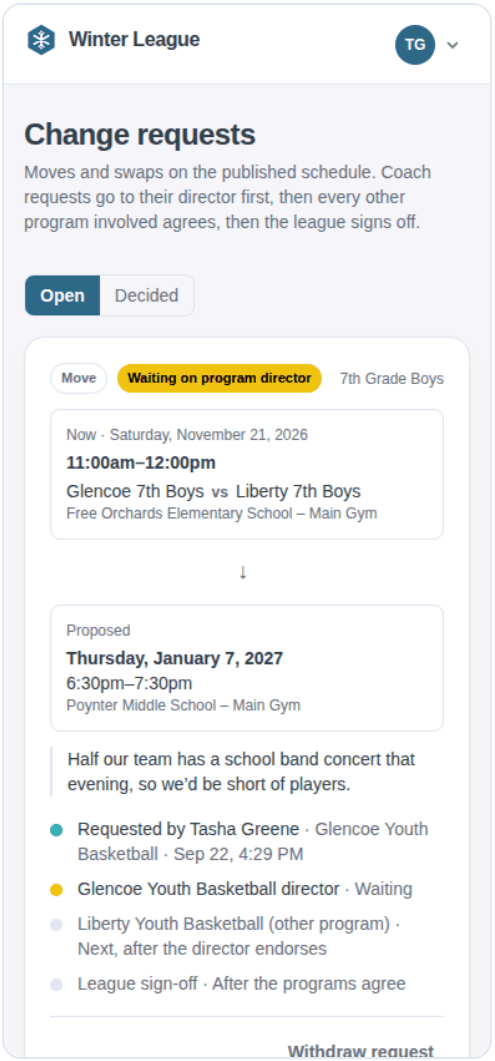

A guest game on the schedule

Following your request

Menu → League → Requests shows your requests and where each one is:

1. **Your Program Director** endorses it.
2. **The other program** agrees.
3. **The league** signs off, and the change is made (the game moves, is cancelled, or is added).

Where a request is

If anyone denies it, their note explains why so you can try another time. To take a request back while it's still open, choose **Withdraw request**. You'll get an email when a request is approved or denied.

Something about the season as a whole? If your team needs something from the schedule itself, such as shorter trips to away games or no early Saturday games, tell your Program Director. They can send the league a rule request for your program.
