

Referee Assignor guide

The Referee Assignor makes sure every game has its referees: you keep the referee roster, put referees on games, confirm who worked, and export what each referee is owed. No money moves through Winter League. The payouts export is a spreadsheet you pay from in your usual way.

Getting started

Signing in

1. Open the league's web address in any browser, on a computer or a phone.
2. Enter the **username** and **password** your league sent you, then **Sign in**.
3. The first time, you'll be asked to choose your own password. It needs at least 10 characters, including a letter and a number.

The screenshot shows the Winter League sign-in interface. At the top, there is a logo consisting of a blue hexagon with a white snowflake-like symbol inside, followed by the text "Winter League" in a bold, dark blue font. Below this, the heading "Sign in" is displayed in a bold, dark blue font. Underneath the heading, a line of text reads "League scheduling for program directors, coaches, and officials." in a smaller, grey font. The form contains two input fields: "Username" and "Password". The "Username" field is a simple white box with a light blue border. The "Password" field is a white box with a light blue border and a "Show" button to its right. Below the password field is a large, dark blue button with the text "Sign in" in white. At the bottom of the form, there are two links: "Forgot username" and "Forgot password", separated by a small dot.

The sign-in page

Forgot something? Under the sign-in box, **Forgot username** emails you your username, and **Forgot password** emails you a link to set a new one. The link works once and expires after an hour.

Finding your way around

- **On a computer**, the main pages run across the top. Everything else is under your name in the top-right corner.
- **On a phone**, tap your initials in the top-right corner. The menu is organised into sections, and **Help**, **Change password**, and **Sign out** are always at the bottom. Tap anywhere outside the menu to close it.

The menu on a phone

A small dot on your initials, or a number next to **Requests**, means something is waiting for you.

Good to know

- **All times are Pacific Time**, whatever time zone your phone or computer is set to.

- **Closing the browser tab signs you out.** You can also choose **Sign out** from the menu. On a shared computer, always sign out.
- **This guide** is always under **Help** in the menu, and you can download it as a PDF from the top of this page.

Your dashboard

Referee coverage shows how many upcoming referee slots there are, how many are still open, how many open slots are in the next two weeks, and how many played games still need attendance confirmed.

The referee roster

- **Add referee:** enter their name, email, and optionally phone and pay. The app creates a username and a **temporary password, shown once**, to pass on. They choose their own password the first time they sign in.
- **Edit:** change contact details, a personal pay rate (blank means the league default), notes, or **Active**. Deactivating a referee removes them from every upcoming game.
- **Settings:** referees per game, default pay per game, and when check-in opens and closes.

The roster also shows each referee's upcoming games, games worked, no-shows, and the dates they've marked unavailable.

Assigning referees

Menu → **Referees** → **Assignments** shows the published games one week at a time. Each game has a box per referee slot: a name when it's filled, **Assign** when it's open. Tick **Only games needing referees** to hide covered games.

The assignments board

Filling a slot yourself

Open a slot to see every referee, with their games this season and that day. Anyone who can't take it is greyed out with the reason: *already working another gym at that time, marked unavailable, or already on this game*. Warnings such as *back-to-back with a game at another venue* are shown but don't stop you. Choose a referee and **Assign referee**, or **Leave open**.

Assign referee

Choosing a referee

Auto-fill

Auto-fill this week or **Auto-fill all upcoming** fills open slots with whoever has the fewest games so far. It never double-books anyone, never uses a date they marked unavailable, and never gives back-to-back games at different gyms. Slots already filled aren't changed. If there aren't enough free referees, it tells you how many slots are still open.

Auto-fill

Referees get an email for each new game.

When things change

- **A referee declines** (*Can't make it*): you get an email and the slot opens again.
- **A game moves**: referees who are still free stay on it and are told the new time. Anyone with a clash is taken off, and you get an email to refill the slot.
- **A game is cancelled**: its referees are released.

Confirming who worked

Referees check in from their phones at the gym. If someone couldn't check in, open their slot on or after game day:

- **Mark as worked**: counts the game for pay.
- **Mark no-show**: they aren't paid for it.
- **Clear attendance**: undo either.

Payouts

Menu → Referees → Payouts.

1. Choose **From** and **To** dates and **Update**.
2. Check the totals, and expand a referee to see each game. If some assigned referees never checked in, a warning tells you, so you can confirm attendance first.

- 3. **Download summary (CSV)** gives one row per referee: name, email, username, games worked, and total.
- 4. **Download game detail (CSV)** gives one row per game worked, with each detail in its own column so you can sort or filter: referee and email, date and day, start and end time, the match-up (e.g. *Forest Grove 5th Boys vs Hilhi 5th Boys*), both teams and their programs, division, venue and court, the final score, when they checked in, whether it was their own check-in or your confirmation, distance from the venue, and the amount.

Both open in Excel or Google Sheets. **Program Directors can export the same detail for their own program's games**, so they can check who officiated without asking you.
