

Program Director guide

Program Directors run one program in the league. You tell the league when and where your program can host games, keep your teams and venues up to date, and approve schedule changes that involve your teams. You only ever see and change your own program.

Getting started

Signing in

1. Open the league's web address in any browser, on a computer or a phone.
2. Enter the **username** and **password** your league sent you, then **Sign in**.
3. The first time, you'll be asked to choose your own password. It needs at least 10 characters, including a letter and a number.

The image shows a sign-in page for the Winter League. At the top, there is a logo consisting of a blue hexagon with a white snowflake inside, followed by the text "Winter League" in a bold, dark blue font. Below the logo, the heading "Sign in" is displayed in a bold, dark blue font. Underneath the heading, a subtitle reads "League scheduling for program directors, coaches, and officials." in a smaller, grey font. The form contains two input fields: "Username" and "Password". The "Password" field has a "Show" button to its right. Below the input fields is a large, dark blue button with the text "Sign in" in white. At the bottom of the form, there are two links: "Forgot username" and "Forgot password", separated by a dot.

The sign-in page

Forgot something? Under the sign-in box, **Forgot username** emails you your username, and **Forgot password** emails you a link to set a new one. The link works once and expires after an hour.

Finding your way around

- **On a computer**, the main pages run across the top. Everything else is under your name in the top-right corner.
- **On a phone**, tap your initials in the top-right corner. The menu is organised into sections, and **Help**, **Change password**, and **Sign out** are always at the bottom. Tap anywhere outside the menu to close it.

The menu on a phone

A small dot on your initials, or a number next to **Requests**, means something is waiting for you.

Good to know

- **All times are Pacific Time**, whatever time zone your phone or computer is set to.

- **Closing the browser tab signs you out.** You can also choose **Sign out** from the menu. On a shared computer, always sign out.
- **This guide** is always under **Help** in the menu, and you can download it as a PDF from the top of this page.

Your dashboard

Get your program ready lists what the league needs from you before it can build the schedule, and ticks each item off as you finish it. Once the schedule is published, the dashboard shows your upcoming games.

The screenshot shows the 'Winter League' dashboard for a Program Director named Colleen Rogers. The top navigation bar includes links for Dashboard, Schedule, Requests (with a notification badge), Gym slots, Blackouts, Venues, and Teams. The main content area is titled 'Good evening, Colleen' and identifies the user as the Program Director for Glencoe Youth Basketball. It shows the active season as 'Winter 2026-27' from Nov 2 to Feb 28, 2027, starting in 41 days. A 'Get your program ready' section lists six tasks: 'Add your gyms' (checked), 'Add map coordinates to every gym' (checked), 'Add your teams' (checked), 'Assign a coach to each team' (unchecked), 'Enter weeknight and weekend game slots' (checked), and 'Mark blackout dates' (checked). Below this, the 'Upcoming games' section shows 48 games for the program, published on Sep 22, 4:29 PM. It lists a game on Nov 5 between Forest Grove 7th Girls and Glencoe 7th Girls. A 'Change requested' button is visible next to the game listing.

A director's dashboard

Venues and courts

Menu → **My program** → **Venues** → **Add venue**. Add each gym your program can host games in, with its address and **map coordinates** (latitude and longitude). The coordinates let the league keep travel reasonable for visiting teams.

Each venue has one or more **courts**. Type a name in **New court name** and choose **Add court**. Gym slots are entered per court.

Adding someone here doesn't give them an app account. Only the league admin can create accounts.

Cancel Add contact

Adding a contact

A contact is **not an app account**. They can't sign in, and adding someone here doesn't create one. Only the league's System Admin creates accounts. Search finds a contact by name, email, phone, or role. The System Admin can see every program's directory.

A coach without an account yet

Add them to the Directory with the role **Coach**. On **Teams**, open the team and choose them under **Head coach** → **From the Directory (no account yet)**. The team shows them with a **Directory** tag.

Edit team

Team name

Northfield 7th Boys

Division

7th Grade Boys

Head coach (optional)

Morgan Diaz

A Directory coach can't sign in, so they won't see the schedule or request changes.
When the league admin creates their Coach account, switch the team to it.

☒ Active this season

Cancel

Save team

A Directory coach on a team

Because a Directory coach can't sign in, they won't see the schedule or be able to request changes. Ask the System Admin to create their Coach account. When it exists (same email, or same first and last name), their Directory entry says *"Now has a Coach account"*. Click **Use the account for their team(s)** to move every team they coach over to the real account in one step. The Directory entry stays, and you can remove it.

While a contact is the head coach of a team, you can't change their role away from Coach. Removing them from the Directory leaves their teams with no head coach (you're warned first).

Gym slots

Gym slots are the times your program can offer the league. **Menu → My program → Gym slots.**

Add slot

Adding gym slots

Use the arrows, **This week**, or **Go to** to move between weeks, and the category buttons to show one kind of slot. Open a slot to edit or delete it. For a repeating slot, **This and following** deletes it and every later week.

A slot that already has published games in it can't be changed or deleted, and its card says how many games are scheduled. Ask the league admin to move those games first.

Day preferences: keeping game slots for girls, boys, or one division

If, for example, your girls' teams play on Mondays, tag your Monday game slots **Girls**. The league's matchmaker then gives those slots to girls' games first.

Tag many slots at once: choose **Tag game slots**, pick the **Day** (e.g. *Mondays*), optionally one **Venue** and a date range, then choose who the slots are for:

- **Keep for:** *Girls' games*, *Boys' games*, or one division (e.g. *6th Grade Girls*).
- **How strictly?**

- **Priority** (the default): those games get the slot first. Other games use it only if nothing else fits, so a priority tag never costs anyone games.
- **Only**: no other games are ever placed there. If there aren't enough of those games, the slot stays empty, and other teams may end up short of gym time.

Tag game slots

×

Keep every game slot on one day of the week for girls', boys', or one division's games, e.g. *girls on Mondays*. It changes existing weeknight and weekend game slots; practice slots aren't affected. Choose **Any game** to clear tags.

▼

How strictly?

☒ **Priority** — girls' games get it first; others only if nothing else fits.

☐ **Only** — no other games. If there aren't enough girls' games it stays empty.

Cancel

Tag slots

Tagging game slots

It changes your existing weeknight and weekend game slots; practice slots aren't affected. To tag a single slot, open it and use **Keep for**. New slots can be tagged when you add them. Tagged slots show a ★ line on the week board, e.g. ★ *Girls priority*. To remove tags, use **Tag game slots** with **Keep for: Any game**.

What it can and can't do: a tag decides which games are played **in your gyms**, so it covers your home games. Away games are at the other program's gyms, on their slots. A team also can't play two games too close together, so a team with two games in a week may still play one on another day. After the league generates a draft, its notes report how your tagged slots were used, e.g. "*Girls priority slots: 7 of 14 game times used by Girls games.*"

Blackout dates

Menu → My program → Blackouts. Add dates your program, or one of its venues, can't be used: holidays, school events, building closures. Gym slots on those dates are shown hatched and aren't used for games. Removing a blackout makes them available again.

The published schedule

Each game shows the referees assigned to it, or **Referees: not assigned yet** if the assignor hasn't filled them.

Travel. The league has one travel cap (30 miles by default) for how far a team travels to an away game. If your program needs a shorter one, ask the league to set a **program travel cap** for you. Your teams then never travel further than that, and opponents beyond it come to your gyms instead. That means more home games for your teams, so make sure you have enough game slots, and possibly fewer games if there isn't enough gym time.

Reviewing the draft schedule

Before the league publishes a schedule, you're asked to check your program's games. When a draft is shared you get an email, and your **Dashboard** shows a card linking to it.

The draft schedule is ready for your review

Check your program's games and sign off by Sunday, October 4, 2026.

Review the draft

The dashboard card

Menu → **Scheduling** → **Draft review** shows every draft game involving your program (not other programs' games), read-only. Only you and the league can see it: coaches and referees see the

- **Sign off** if your games work. You can add a note for the league.
- **Flag** a game that doesn't work, with a note, e.g. *"11/5 clashes with our school event."* The league is emailed and either changes the game or replies. Either way you're emailed, and the reply shows under **Your flags**. When your games work, sign off. Signing off withdraws any flags still open.

Draft review

The league publishes once every program has signed off. If the deadline passes without a response, the league can publish anyway, and that's recorded.

Referee payouts for your program

Menu → My program → Referee payouts shows the referees who worked **your program's games**, and what each is owed for them. Other programs' games aren't included.

- 1. Choose **From** and **To** dates and **Update**.
- 2. Expand a referee to see each game they worked for you.
- 3. **Download game detail (CSV)** gives one row per game, each detail in its own column so you can sort or filter in Excel or Google Sheets: **Referee**, **Email**, **Date**, **Home team**, **Away team**, **Checked in** (Pacific Time), **Confirmed by**, and **Amount**. **Download summary (CSV)** gives one row per referee.

Referee payouts for a program

Referees are paid by the league, not by your program; this is for checking and for your own records. If a warning says some assigned referees never checked in, the Referee Assignor confirms attendance for those games.

Final scores

After a game, you or a coach of either team enter the final score. On **Schedule**, played games have an **Enter score** button from tip-off on game day; tick **Needs a score** to see the ones still waiting. Your dashboard says how many of your program's games need scores.

Enter each team's points, an optional note (e.g. *Forfeit*), and **Save score**. The other team's coach and director are emailed, and every entry or correction shows in both programs' Activity. Use **Edit score** or **Clear score** to fix a mistake. The [Coach guide](#) has screenshots of each step.

Change requests

When a game needs to change, anyone involved can ask. **Request change** on a game lets you **move this game** to another open time, **swap** it with another of your program's games, or **cancel** it if it can't be played at all (weather, a gym closure). Only times that fit every scheduling rule are offered, and a cancellation needs a reason.

The screenshot shows a game cancellation request interface for a 7th Grade Boys game. At the top, there are three tabs: 'Cancel' (selected), 'Waiting on program director', and 'Needs your decision'. The game details are: 'Now - Thursday, November 5, 2026', '7:30pm-8:30pm', 'Glencoe 7th Boys vs Hilhi 7th Boys', and 'Evergreen Middle School - Main Gym'. A 'Requested' box indicates 'Cancel this game' with the reason 'It won't be played. Any referees are taken off.' Below this, a message states 'Snow closed the school; the gym is unavailable.' A list of actions follows: 'Requested by Tasha Greene · Glencoe Youth Basketball · Sep 25, 10:06 AM', 'Glencoe Youth Basketball director · Waiting', 'Hilhi Youth Basketball (other program) · Next, after the director endorses', and 'League sign-off · After the programs agree'. At the bottom right, there are three buttons: 'Withdraw request', 'Deny', and 'Endorse'.

A cancellation waiting for a decision

A cancelled game stays on the schedule marked **Cancelled** with the reason, so everyone can see what happened, and its referees are taken off.

Requesting an extra game

To add a game for one of your teams, for example to replace a cancelled one, choose **Request a game** at the top of the **Schedule** page:

1. Choose your **Team** and the **Opponent**. Only opponents within the league rules are listed: the same division, another program, and not already played as often as the league allows. **Guest teams** (outside clubs the league has set up, marked *guest*) are listed too, for a non-conference game. If

none are listed, your team already plays everyone it can. Contact the league if it needs a game outside the rules.

2. Pick a time. Every time listed is an open game slot at either team's gym that fits both teams' schedules, and the court decides who hosts.
3. Give a reason and choose **Send request**.

It follows the same path as other requests, and the game appears on the schedule, with referee slots, when the league signs off. Games added this way show an **Added** badge.

The screenshot shows a web interface for a basketball league. At the top, there are three tabs: 'Add game' (selected), 'Waiting on program director' (highlighted in yellow), and 'Needs your decision'. The page title is '5th Grade Boys'. The main content area is divided into two columns. The left column shows a 'Proposed new game' for Thursday, November 5, 2026, at 7:30pm-8:30pm, between Riverbend 5th Boys and Northfield 5th Boys at Riverbend High School - Main gym. Below this, it says 'Replaces our game that was cancelled for the roof repair.' The right column is titled 'Requested' and contains the text 'Add this game to the schedule' with a sub-note: 'It counts like any other game. It gets referees and can be scored once it's on the schedule.' Below these columns is a list of steps: 'Requested by Tasha Greene · Northfield Hawks · Sep 26, 4:30 PM', 'Northfield Hawks director · Waiting', 'Riverbend Youth Basketball (other program) · Next, after the director endorses', and 'League sign-off · After the programs agree'. At the bottom right, there are three buttons: 'Withdraw request', 'Deny', and 'Endorse' (which is highlighted in dark blue).

A request to add a game

Guest games

A game against a guest team is always at one of your gyms, so only your times are offered. There's no guest director, so after you ask (or endorse your coach's request) it goes straight to the league. Guest games show (*guest*) after the guest team's name and a **Guest game** badge. They get referees and scores like any other game, but they don't count toward your team's games-per-team target or home/away balance.

Every request follows the same path:

1. **Your approval**, if one of your coaches asked.
2. **The other program's director** agrees.
3. **The league** gives final sign-off, and the change is applied.

Menu → **League** → **Requests** shows every request involving your program. The number on **Requests** is how many are waiting on you.

- **Endorse**: approve your own coach's request so it moves to the other program.
- **Agree**: accept another program's request involving your team.
- **Deny**: turn it down, with a short note explaining why.
- **Withdraw request**: cancel a request your program made, while it's still open.
